&  
**FLEXI-NEWS™**

Standard Products Brochure Effective from June 2017

**Bartuf**<sup>®</sup>  
Quality Retail Solutions

Bartuf is one of the UK's leading manufacturers of retail displays, providing high quality, innovative solutions for news, magazines, confectionery, greeting cards and much more to the biggest names in retail.

---

Established in 1995, Bartuf offers expertise in the design, manufacture and installation of display solutions via its UK production facilities.

Bartuf's multimillion pound turnover business has been built around the provision of the very best customer service which is reflected in its long standing client relationships.

Bartuf's portfolio of off-the-shelf solutions are all manufactured from polyester – a material which is 100% recyclable, highly durable and very eco-friendly. The extensive range of display equipment allows flexibility and choice when it comes to creating your in store selling space.

The products in this brochure have been designed to offer you the very best retail display solutions in all categories. With a large range of innovative displays from wall and gondola bays to dedicated freestanding displays we are confident you will find something to match your requirements.

---

**If your project requires a bespoke approach, our highly experienced in-house design team can work with you to develop your ideas into a viable solution that will deliver on maximum return once in-store.**

# Magazines

## Leading In Store Displays

Magazines, by their very nature, demand a lot of in store space if you are to display a comprehensive range. As with many categories, when allocating this space you need to make sure your display is working as hard as possible.

You also need to take into account the mix of categories within the magazine sector in relation to bestsellers and specialist titles and also weekly and monthly publications. This creates conflicting needs for both high range displays and high volume shelving. Quite often, one display does not suit all.

The BARliteLED™ range of products, specialising in retail display lighting, is a high quality solution which brings a retail environment to life and creates a modern look to your store design whilst keeping running costs to a minimum.

### The Right Decision

Built on years of industry knowledge and working with some of the leading retailers and wholesalers, Bartuf have developed a large range of shelving options and bay configurations to help you get the ultimate magazine display for your store.

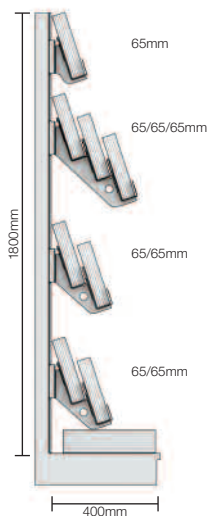

All hang-on shelving systems carry our unique 5 year guarantee (subject to our standard conditions)

Increase sales by adding LED illumination (see page 41 for details)

# Why... Bartuf Magazine Shelving?

## 1 Largest shelving range

From 1 to 8 tier shelves and shelf depths from 35mm to 150mm, there are solutions for every magazine bay requirement.

## 2 Extensive range of display enhancements

From dividers to maintain excellent product presentation to category signage to help with in bay navigation.

## 3 Full face and multi tiered

High volume full face shelving for the bestsellers and lower volume multi tiered shelving for specialist titles.

## 4 Bay widths

Whatever your bay width, Bartuf's magazine shelving is designed to fit and make the most of the available space

## 5 One shelf, two brackets

The simplicity of the magazine shelving keeps installation times to a minimum.

## 6 Universal fitting

The hook detail on all Bartuf brackets has been designed to fit into the majority of backing structures found in today's retail environments. Our standard brackets even fit into 25mm pitch systems (on request) which are growing in popularity.

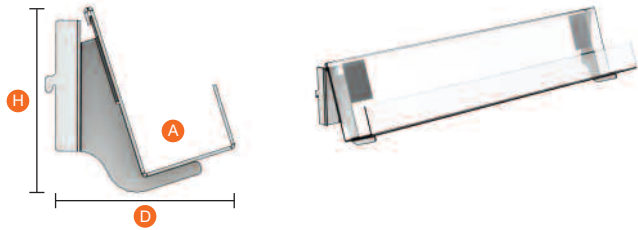

## 7 Illumination

The BARliteLED™ lighting system has been designed to easily fit to any Bartuf magazine shelf. Adding illumination not only brings a 'wow' factor to your display it is also proven to increase sales. See page 41.

# Newspapers

## A Display for Everyone

The newspaper category is of utmost importance when it comes to driving footfall into your store. Quite often a primary reason for a shopper to visit, the display of newspapers must deliver highly on presentation and product availability.

### The Right Decision

With today's demands on retail space, choosing the right display for your store is paramount to the success of selling newspapers. Whether you make the decision to put newspapers on a wall bay or have them in a freestanding unit, Bartuf's choice of display solutions will guarantee to deliver success in this category.

**All hang-on shelving systems carry our unique 5 year guarantee**  
(subject to our standard conditions)

**Introducing the Flexi-News Base unit**

# Why... Bartuf Newspaper Shelving?

## 1 Shelf depth

Three shelf depths offering both high and low volume display options increasing flexibility in your wall or gondola display.

## 2 Universal fitting

The hook detail on all Bartuf brackets has been designed to fit into the majority of backing structures found in today's retail environments.

## 3 Bay widths

Whatever your bay width, Bartuf's newspaper shelving is designed to fit and make the most of the available space.

## 4 Product presentation

The newspaper shelving has been developed to display the newspapers at the optimum angle ensuring great product visibility whilst preventing newspapers from falling forwards.

## 5 Petg shelf

The inherent strength in Petg makes it a natural choice for displaying high volumes of newspapers.

## 6 Illumination

The BARliteLED™ lighting system has been designed to easily fit to any Bartuf newspaper shelf. Adding illumination not only brings a 'wow' factor to your display it is also proven to increase sales. See page 41.

## 7 Simple design

A very quick and simple system to install taking the pain out of initial set up and also future reconfigurations.

## 8 Dividers

A simple and very effective divider system that maintains a tidy display and keeps product presentation at its best.

# FLEXI-NEWS™

## The Newspaper Display for today

No matter what newspaper demand your business has, Flexi-News has a solution to suit. Founded on 22 years of news display experience coupled with the latest market insight, the features of the Flexi-News range are second to none.

### FLEXI-NEWS™ offers the following benefits:

- **Great product visibility**  
Huge 'front page' impact for your key titles, with added shelf space flexibility for higher range, lower volume display.
- **Shelf depths for today's 7 day market**  
Optimum display for mid-week and weekend news volumes.
- **Built-in display shelf flexibility**  
Unique to your store – full face, or interleaved the choice is yours to maximise those sales.
- **Space saving solutions**  
FLEXI-NEWS™ offers real space saving displays that are right for your store.
- **Simple self assembly**  
With no tools required, each display can be built in just a few minutes.
- **A quality Bartuf product you can trust**  
Easy to purchase, prompt delivery, long lasting, and great value.

From FLEXI-NEWS™ freestanding to vertical news, selecting your display has never been easier:

1. How many copies do you need to display?
2. How many facings do you require?
3. What space / location do you have in mind?

With FLEXI-NEWS™ the conclusion you reach will always be the right one for your store.

There's no better time to plan for your updated newspaper display.

# Why... Bartuf Confectionery Shelving?

## 1 Dual angle display shelving

Display your confectionery products on either a flat or angled shelving system all with one shelf using the Bartuf unique hook in system.

## 2 Extensive range of sizes

From 150mm to 450mm deep shelving and any width from 600mm to 1250mm making it easy for you to tailor your confectionery display to your exact requirements.

## 3 All shelves include SEL's

One thing less to think about when ordering your confectionery display, all shelves come supplied with a 39mm SEL as standard.

## 4 Petg shelf material

Selected for its excellent clarity and strength.

## 5 Universal fitting

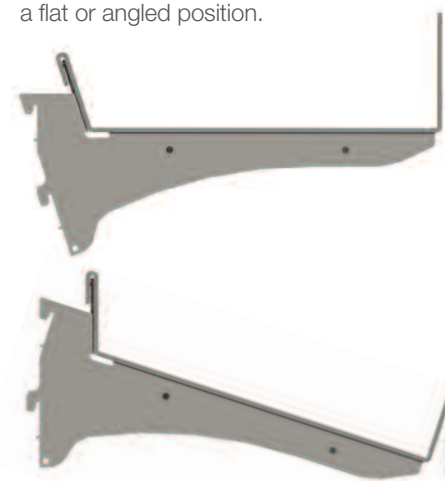

The hook detail on all Bartuf brackets has been designed to fit into the majority of backing structures found in today's retail environments.

## 6 Illumination

The BARliteLED™ lighting system has been designed to easily fit any Bartuf confectionery shelf. Adding illumination not only brings a 'wow' factor to your display it is also proven to increase sales. See page 41.

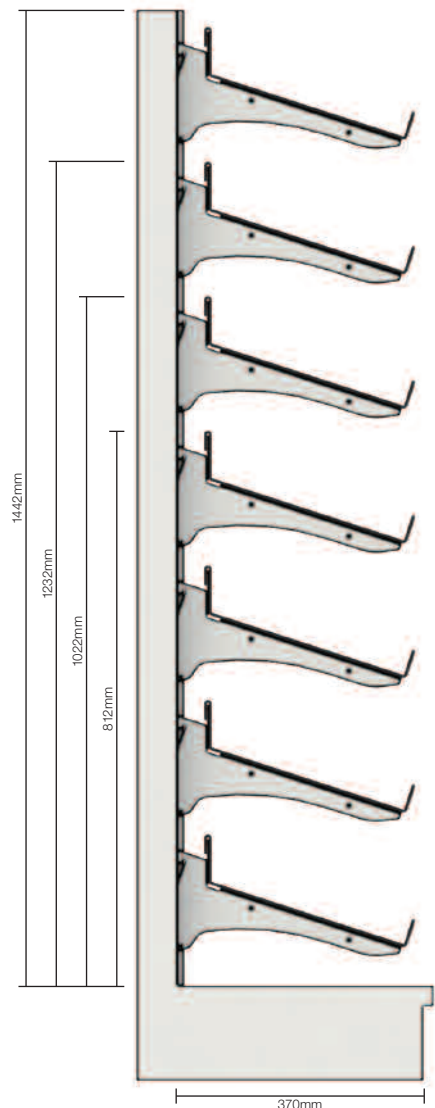

### Dual Angle Shelving

Display the Flangle™ shelf in either a flat or angled position.

Please quote codes on all orders. Other sizes are available subject to quotation

# Why... Bartuf Snack Shelving?

## 1 Unique design

Using the same bracket system as the confectionery shelving, the snack shelving incorporates a dedicated shelf which not only allows you to quickly bulk merchandise the display but also has an integral front display riser to hold a single pack of crisps to maintain a tidy display.

## 2 Petg shelf material

Selected for its excellent clarity and strength.

## 3 Extensive range of sizes

From 300mm to 450mm deep shelving and any width from 600mm to 1250mm making it easy for you to tailor your snacking display to your exact requirements.

## 4 All shelves include SEL's

One thing less to think about when ordering your snack display, all shelves come supplied with a 39mm SEL as standard.

## 5 Universal fitting

The hook detail on all Bartuf brackets has been designed to fit into the majority of backing structures found in today's retail environments.

## 6 In store trials

Proven to increase sales by over 20% when compared to wire baskets.

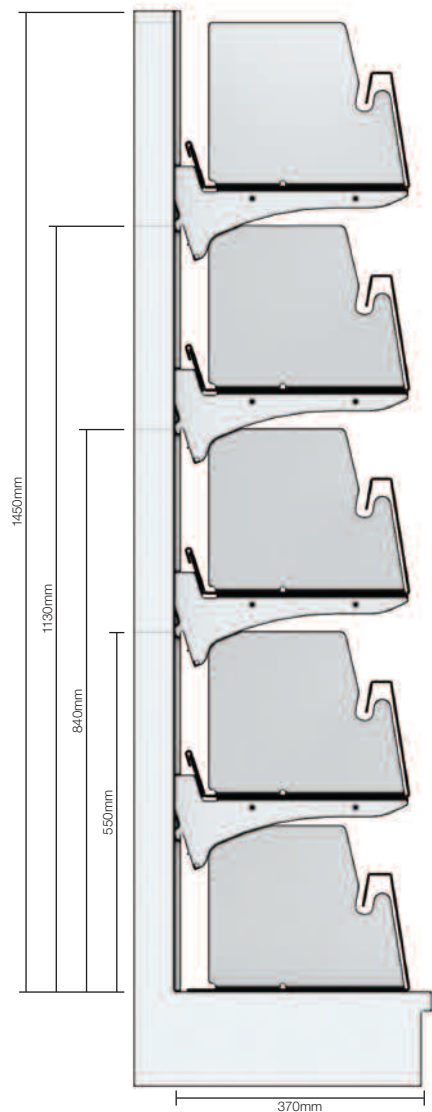

### Snacking bin options

If you need ultimate flexibility in your display then using a snacking bin may be the best option, with many width and depth options, your snack display can be configured exactly to your requirements.

# Gondola Side Display

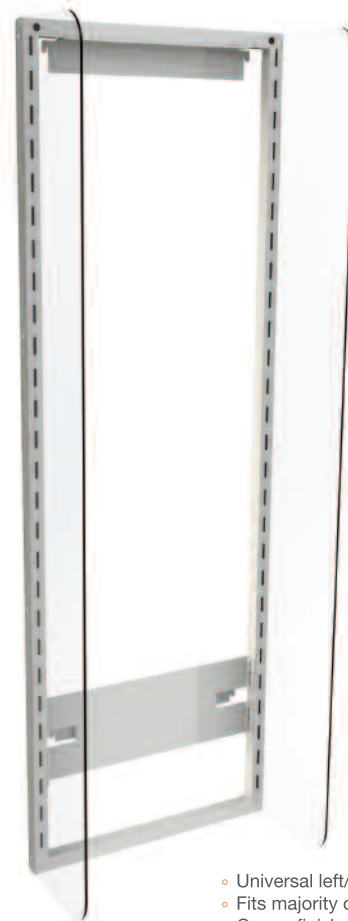

## Creating Display Space

Create additional selling space in your store with the Gondola Side Display. With no impact on floor space, this simple to fit display solution can bring the ends of a gondola to life whilst maximising your impulse sales opportunities.

A unique design of fitting gives the gondola side display a universal fix to most gondolas and a range of sizes allows you to get the most from your display space.

With a range of shelving displays to fit, the gondola side display is ideal for promoting impulse sales on categories such as magazines, confectionery, snacks, greeting cards and much more.

### Gondola Side Frame

- Universal left/right hand fit
- Fits majority of backing systems
- Cream finish metal frame
- Petg side wings
- Slotted frame 50mm pitch

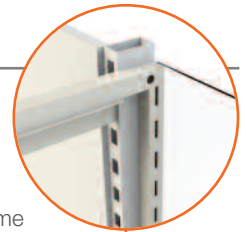

H:	Width	Code	Price
1400mm	470mm	K071279	£151.25
W: 220mm	570mm	K071237	£154.90

### Size Guide

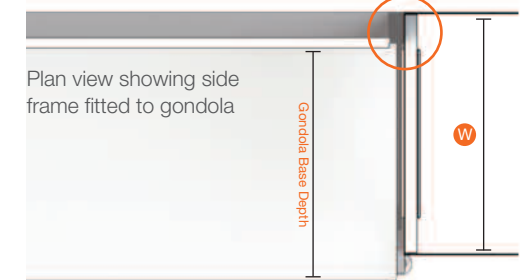

Two sizes of Gondola Frame offers flexibility to fit gondola base depths of 400mm and above.

W 470mm - K071279  
(to fit gondola base depth of 400mm and above)

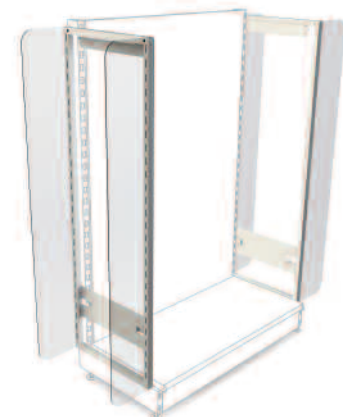

W 570mm - K071237  
(to fit gondola base depth of 500mm and above)

Note:  
Gondola side frame width overlaps upright of existing gondola

### Universal Fitting

Simple to order

One bracket design fits both left and right hand side of gondola end.

# 4 Queue Management

## Increase Sales Opportunities

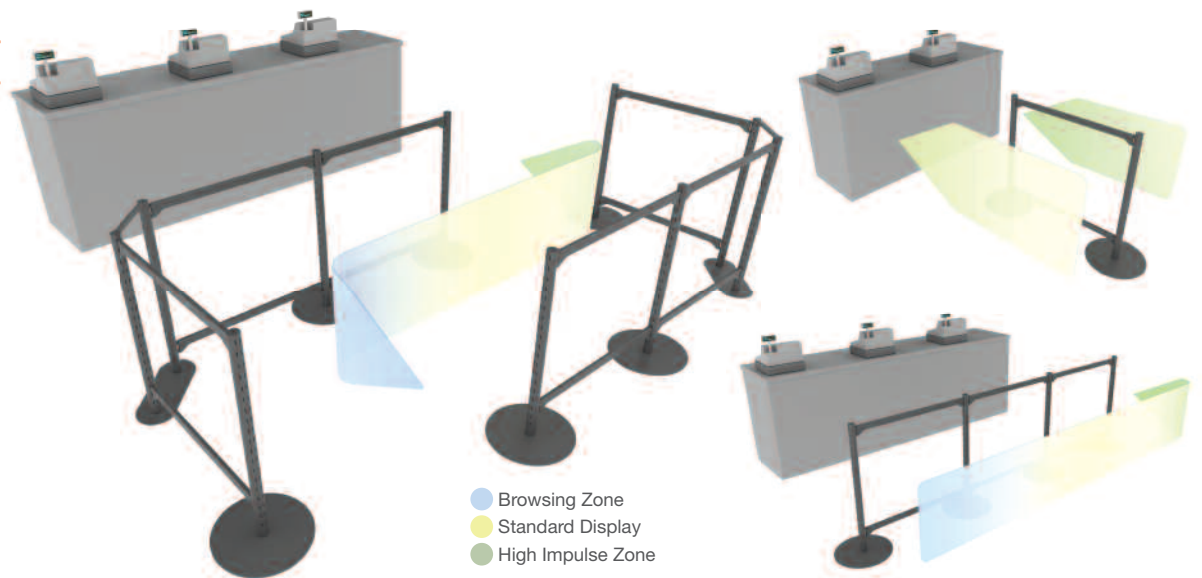

Introducing an in-queue display system is an excellent method of increasing sales on the average basket spend by enticing further impulse sales at the till point.

## Understanding the product mix in your queue really can help drive sales.

Short queue systems are best planned to display high impulse items only. On longer walk through configurations a large range of product can be introduced ranging from having a browsing zone through to high impulse products near to the exit point.

As a customer passes through a queue system the time to browse product diminishes the nearer they get to the exit point, this needs to be reflected in the product choice for certain zones.

## The System

Comprising of only uprights and tie bars, the assembly of the sub structure is very simple keeping installation times to a minimum

- Robust steel construction ensuring longevity in the harshest of retail environments
- Finish: Anthracite as standard, other colours available on request

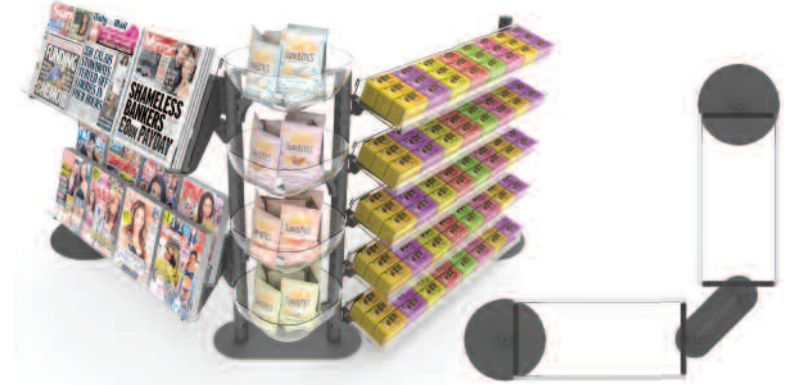

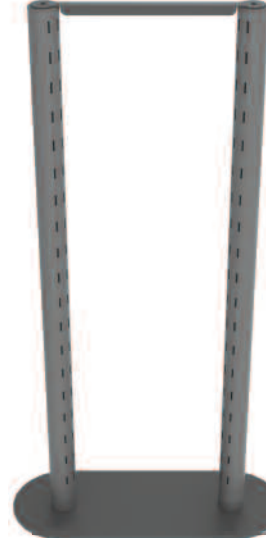

## Uprights

- 1000mm/1200mm upright height options - slotted uprights to hang display add on shelves such as confectionery and magazines
- 50mm pitch slotted uprights

Height	Code	Price
1000mm	N001448	£84.00
1200mm	N001442	£86.00

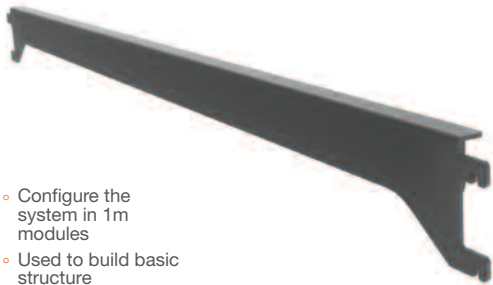

## Corner Uprights

- Run any display right into the corners of your queue management system on both sides.
- 1000mm/1200mm height options
- 50mm pitch slotted uprights

Height	Code	Price
1000mm	N001449	£120.00
1200mm	N001443	£124.00

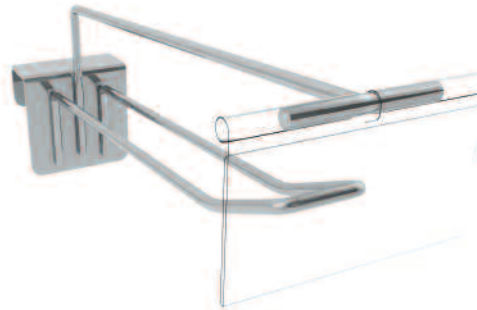

## Tie Bars

- Configure the system in 1m modules
- Used to build basic structure
- Minimum of either 2 bars or 2 fixed shelves per bay run
- Check individual products for tie bar requirements
- One tie bar can typically fit up to 6 eurohooks

Width	Code	Price
1000mm	N171219	£12.00

## Eurohooks

- Position anywhere along Tie Bars to provide hooks for bagged product

Length	Code	Price
200mm	K501724	£2.25

## Post Top Bowl

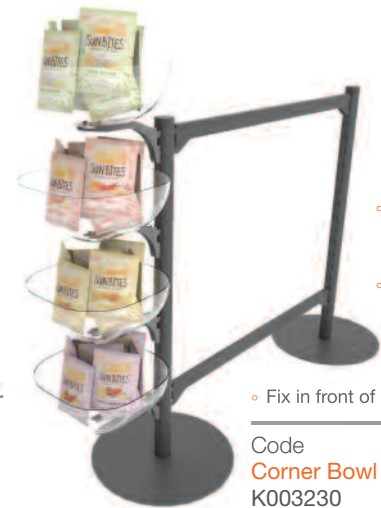

K003156

- Generate impulse sales
- Fits to the top of any Q+ upright
- Includes 4x 39mm SEL
- Petg construction

H: 125mm
W: 300mm
D: 300mm
Price: £38.87

## Corner Bowls (Single)

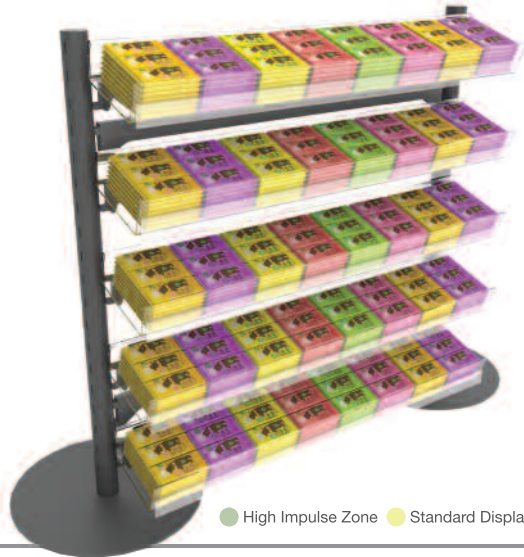

- Position anywhere up the Q+ upright and corner uprights
- Petg Construction

Code	Price
K003230	£52.00

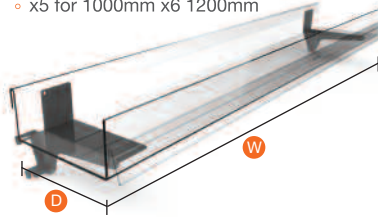

Products highlighted green are available for next day despatch  
Please quote codes on all orders. Other sizes are available subject to quotation

# LED Under Shelf Lighting Proven to Increase Sales

The BARliteLED™ range of products, specialising in retail display lighting, is a high quality solution which brings a retail environment to life and creates a modern look to your store design whilst keeping running costs to a minimum.

Retail display lighting has proven to increase sales in many categories ranging from magazines, confectionery, wines and spirits to cosmetics. The BARliteLED™ product has many benefits including its slimline size which allows you to position this lighting in almost any display.

Using premium quality LED's, the BARliteLED™ system is guaranteed to bring your products to life.

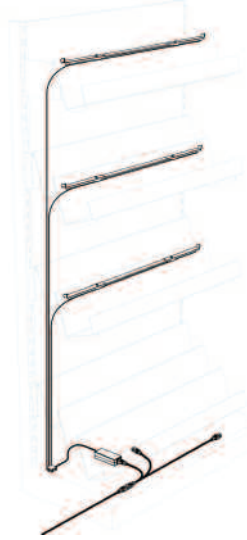

## Illumination

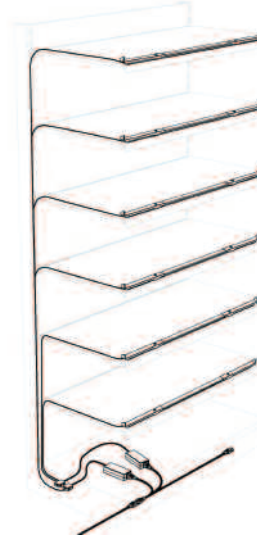

These complete kits allow you to install LED illumination into many wall and gondola displays as supplied by Bartuf plus the majority of branded metal backing systems.

### Install up to 4 lights per bay

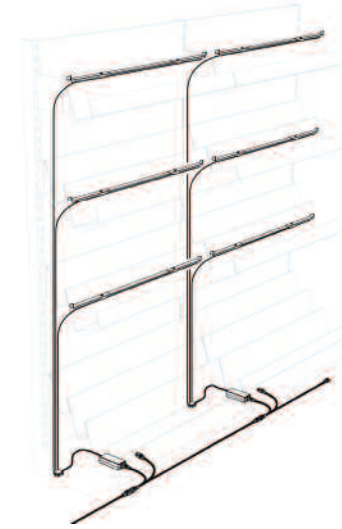

- Ideal for magazines and newspaper bays.
- This option brings your display to life using the minimum amount of components.
- Simply order the individual packs as detailed, for example, if you need 3 lights in your bay, order the triple lighting pack to the width required.

### Install up to 8 lights per bay

- Some displays require more than 4 lights per bay, such as confectionery and beers, wines and spirits. You can add up to 8 lights 1 bay using 2 lighting packs.
- For example, if you need 6 lights in one bay, order two triple lighting packs to the width required.

### Linking bays together

- The three way mains power linking lead (supplied with all packs) allows you to run up to two lighting packs per bay and also link your mains power to an adjacent bay.
- You can run up to 6 bays all running quad lighting packs from one 13AMP socket.

The brackets supplied with these packs fit the shelving brackets on magazine, newspaper, confectionery, greeting cards and metal shelf displays. There are 3 sizes of fitting available which give the options to fit bay widths from 600mm to 1330mm.

Available as either single, twin, triple or quad LED light fittings to suit the application.

Very simple to install, these LED lighting packs can easily be linked together to allow you to run up to 6 consecutive bays from one 13AMP socket.

For more detail on the BARliteLED™ system visit [www.barliteled.co.uk](http://www.barliteled.co.uk)

### What's included...?

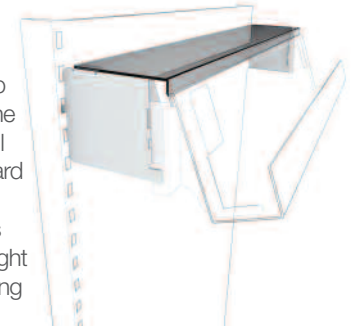

- LED light bars and low voltage power leads
- 240v to 12v transformer with 4 way low voltage power distribution
- 3 way mains power linking lead
- Mains power lead
- Pair of wall/gondola display fixing brackets per LED light bar
- Cable management conduit

No. of	Bay Widths		
	600-800mm (lightbar length 500mm)	900-1000mm (lightbar length 750mm)	1200-1330mm (lightbar length 1050mm)

Single	L011061 £81.75	L031077 £101.65	L041067 £103.95
Twin	L011062 £122.65	L031078 £146.00	L041068 £150.70
Triple	L011063 £151.85	L031079 £186.90	L041069 £195.10
Quad	L011064 £198.60	L031080 £245.30	L041070 £257.00

### Top Tier Illumination

The top tier illumination bracket provides a unique product enhancement solution for the top section of your magazine bay. The lights are extremely easy to install and can run in series with standard BARliteLED's (BARliteLED not included). A protective top cap is included that both protects the light and prevents any magazines falling down the back of the system.

# Trust Bartuf

## For all your retail display solutions

FORE have enjoyed a lasting and successful partnership with Bartuf and are delighted with their innovative design approach and use of technology. Their willingness to change and be flexible has resulted in Bartuf becoming the market leading provider of News category fixture solutions to meet our clients' needs

Richard Smith, Fore UK

The Flexi-News display that we put into our West Horndon store has been a great success and I think is a real step-change in terms of displaying titles in our stores.

Rosanna Cook, McColls

'LED lights have made a huge difference both in brightening up the store and increasing confectionery sales by over 8%'

Joe Rushton, Director, Towlers Ltd
